

To Whom it may concern:

Schtung Music is a full service Music Production company with offices and recording studios in Hong Kong, Singapore and Los Angeles.

We specialize in composing and recording music for films, television commercials and documentaries.

We have had occasion to hire Mr. Greg Chako for a number of projects and his talent and professionalism are of an exceptionally high standard. His knowledge of different musical styles, and his ability to adapt to any given situation have made him a popular choice for the commercial work we do, where last minute changes and unpredictable deadlines are the norm.

We, in Hong Kong, will miss Greg, but we sincerely hope he will be working with with our colleagues in Singapore in the not too distant future.
