To Whom it may concern:

Throughout the year our company hosts social and business events which can be enhanced by live musical entertainment. From the start of 1993, we have used Greg Chako and his company Chako Productions as consultants to help plan, co-ordinate, and in some cases, perform the musical entertainment for a variety of functions we host. We have found his services to be extremely professional and diverse. For one event to launch a new magazine, his company provided a Gu Jeng player to play authentic Chinese folk music while a swinging jazz band played in another room. Our company in Hong Kong will miss his creativity and high degree of professionalism. We do have an office in Singapore and we hope to use his services when hosting business/social events.

Yours sincerely,

Scott Thoreau
