Dear Nicola.

I am Writing to commend you on your choice of entertainment in the Bar and Billiard room namely the Greg Chaco Quartet. I was passing through the Raffles Hotel to see the results of the refurbishment to that most impressive edifice when I heard the music, and being a guitarist myself it didn't take long for me to conclude that there was a guitar being played in there, so that was me settled for the evening. Jazz guitar is not exactly the most popular music and for most establishments is not usually their first choice of entertainment, so a brave thing for the Raffles to take on.

Anyway I thoroughly enjoyed myself on a couple of evenings and will definitely visit the Bar and Billiard room again, to hear Greg Chaco, whenever possible.

Keep up the good work and thank you,

yours sincerely

Vince Hockey
