

GREG CHAKO

Corporate Event Performance

*Providing the
Perfect Ambience
with Music*

What I Do

I create elegant live jazz atmospheres for hotels, private clubs, corporate events, and upscale dining environments. By shaping volume, repertoire, and pacing in real time, the music enhances the room without ever competing with conversation.

The Problems I Solve

Many venues like the idea of live music but worry about:

- Music being too loud
- Performers drawing attention away from guests
- Musicians who don't understand hospitality environments

I create a musical backdrop that supports the venue, the staff, and the overall guest experience.

Sorrento's Italian Joint - Cincinnati

"Greg's music sets the perfect vibe — relaxing and soulful without ever being overpowering. He's fantastic with guests, takes requests with ease, and really knows how to read the room ... a true professional who enhances the dining experience!"

— Kyle Lucas
General Manager
Sorrento's Italian Joint

What Sets Me Apart

Greg's experience extends well beyond performance. During his international residencies he has also served as a music director and contractor for major hospitality properties and property complexes, curating and managing full weekly entertainment programs for hotels, restaurants, and lifestyle venues within large hospitality properties and complexes.

Leading ensembles and coordinating a roster of professional musicians performing multiple nights each week, he works closely with hospitality management and event planners to ensure the music complements the atmosphere of the room and enhances the overall guest experience.

The Result

When the atmosphere is right:

- guests stay longer
- the room feels relaxed and welcoming
- the overall experience becomes more memorable

*"My goal is simple:
make the venue - and
the client - look good."*

Clients Include:

- JPMorgan Chase
- Goldman Sachs
- Visa International
- Coca-Cola
- Toyota

Venues Include:

- Ritz-Carlton
- Mandarin Oriental
